

Heatbeater: 1

Lightweight and comfortable glove with a maximum service temperature of 350 degrees Centigrade.

Glove code	Article number	Total length
KV-5V-1x1x-32	022511320	32 cm
KV-5V-1x1x-42	022511420	42 cm
KV-5V-1x1x-60	022511600	60 cm

Materials on the palmside:

- heavy-duty kevlar felt (exterior)

Description:

5-finger kevlar felt glove with Kevlar felt cuff.

Because of its high puncture resistance sharp objects will have little effect.

At a temperature of 350 degrees Centigrade the glove achieves a contact time of 13 seconds. At 250 degrees C: 19 seconds. The product is non flame supporting. We advise not to wash the glove. The glove is available in 1 size only.

CE results:
